HOW IT WORKS

PUSH TO LOCK

PUSH TO UNLOCK

For use with power tools, portable lighting, lawn tools, generators, construction and industrial applications, woodworking and machine shops, farms, automotive, lighting, home and garden sound and stage, and more.

With PlugLocker's integrated locking feature, accidental disconnection and related safety issues are things of the past. With a simple push of the button, PlugLocker pins slip through the plug's blade holes, automatically locking any standard 125-volt plug.
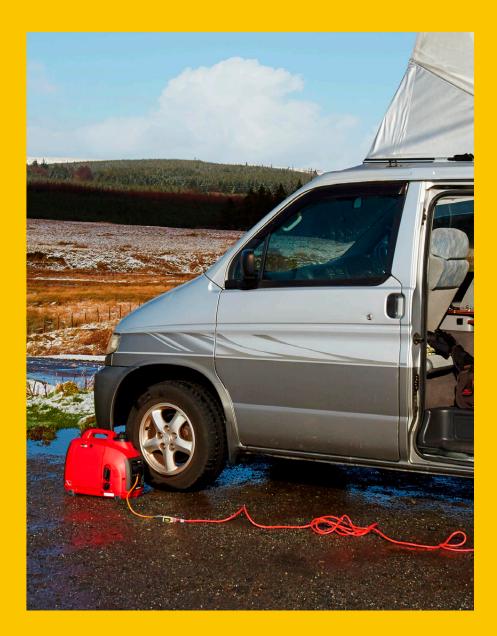

FEATURES

- Built-In Push Button Locking System
- Locking Strength of 40 lbs.
- Power On Lighted End
- Indoor/Outdoor Sun and Cold Weather Resistant
- Dust, Dirt and Water Resistant*
- SJTW Rated Abrasion Resistant Casing

UL RATING: 125V/15A/1875W • USABLE TEMP RANGE: -40° TO 140° F • *WARNING: Connected load MUST NOT EXCEED 1875 watts. *DO NOT SUBMERGE IN WATER. Not intended for use with aquarium equipment.

UL CERTIFIED
